

Eight Capital Partners plc

("Eight Capital" or the "Company")

Investment in Greencare Capital plc

- Investment of £280,000 in newly quoted NEX investment vehicle Greencare Capital plc ("Greencare")
- Investment represents an interest in 21.2% of Greencare
- Greencare's investment strategy is to invest in the European medicinal cannabis, hemp and CBD wellness sectors

The Board of Eight Capital is pleased to announce an investment in aggregate of £280,000 into Greencare Capital plc in two rounds prior to and on admission. Greencare is focused on the rapidly changing regulatory environment surrounding legal Medicinal Cannabis as well as investment opportunities within the Hemp and CBD wellness sectors and other plant-based medicines. Greencare was admitted to trading on the NEX Exchange Growth Market ("NEX") today raising £515,000 on admission.

Greencare aims to identify investment opportunities in the cannabis sectors predominantly in Europe and its directors are aware of a number of potentially attractive investment opportunities such that they are hopeful that an investment may be made in the short term. Whereas many investors are focused on production, the first target investment of Greencare is a company with a market leading position in the distribution of cannabis and related products in its home country, one of the largest European economies.

This investment in Greencare fits with Eight Capital's strategy of investing in financial services including investing companies. The Board of the Company recognised the significant potential in the wellness industry in particular in the fast developing cannabis investment market globally and are excited to have been able to be one of the founding investors in Greencare.
